2. Important Note

1. The following software will be installed only as per requirement:
2. Adobe Photoshop
3. Adobe Illustrator
4. AutoCAD
5. Microsoft Visio

These applications will be installed only after verifying that the PC/Laptop specifications (RAM, processor, storage, etc.) support them.

3. Software Request Process

If additional software is required for work purposes:

1. The employee must submit a request to the ICT Department.
2. The request will be reviewed for security, licensing, and compatibility.
3. If approved, the ICT Department will install the software.

4. Compliance

Use of unauthorized or unlicensed software may pose security risks and violate company IT policies. Any such software may be removed from company systems without prior notice.
