1. Objective:

- 1.1 This policy defines the mandatory, centralized process for procurement of all hardware devices that will be connected to, configured on, or integrated with the Pakistan Cables Limited (PCL) network, ensuring security, compliance, and standardization.

2. Scope:

- 2.1 This policy covers all hardware including laptops, desktops, servers, network devices, printers, IoT/OT equipment, and vendor-supplied devices requiring network connectivity.

3. Applicability:

- 3.1 This policy shall be applicable to all Pakistan Cables Limited employees, interns, contractors, consultants, partners, affiliates, and third parties who utilize or are granted access to the company's IT assets, systems, or resources, whether on-premises or remotely.

4. Roles & Responsibilities:

- 4.1 This section shall define the key roles and responsibilities of all stakeholders involved in the governance, management, and use of IT assets within Pakistan Cables Limited.

4.1.1 Chief Executive Officer

- Shall serve as the final approving authority for all IT procurement exceptions, and policy deviations.

4.1.2 Head of IT

- Shall be accountable for policy governance, implementation, and compliance.

4.1.3 IT Department

- Shall approve specifications, assesses cyber risk, configures devices.

4.1.4 Procurement

- Shall execute sourcing after IT review and approval.

4.1.5 Finance

- Shall ensure capitalization and financial controls.

5. Policy Statement:

- 5.1 All hardware intended for use on the PCL network shall be procured only after IT approval.
- 5.2 Business departments shall not independently procure hardware or engage vendors without IT involvement.
- 5.3 Hardware procured outside this policy shall be classified as unauthorized (Shadow IT) and shall not be connected to the PCL network.

IT Hardware Procurement Policy

2 of 3	0041	01	February 6, 2026	March 1, 2026	IT Division

6. Hardware Procurement Workflow

- 6.1 Business submits requirement justification to IT
- 6.2 IT performs:
 - Technical compatibility assessment
 - Cybersecurity risk evaluation
 - Standard model verification
- 6.3 IT-approved specification shared with Procurement
- 6.4 Procurement engages approved vendors
- 6.5 IT validates received hardware
- 6.6 Asset is tagged and configured by IT
- 6.7 Deployment approval granted

7. Security & Compliance

- 7.1 All hardware shall:
 - 7.1.1 support endpoint security tools (EDR, antivirus, DLP)
 - 7.1.2 support OS-level encryption
 - 7.1.3 support secure boot and firmware integrity
 - 7.1.4 be free from vendor-installed unauthorized software
 - 7.1.5 be sourced from approved and reputable vendors
 - 7.1.6 Any device found non-compliant with defined security standards shall be blocked from network access until restored to compliance.

8. Audits & Reporting

- 8.1 The IT Department shall conduct annual asset audits and quarterly reconciliations in coordination with HR and Finance.
- 8.2 Audit and reconciliation reports shall be submitted to the Chief Executive Officer (CEO) for review and record.
- 8.3 Any missing, untagged, or unauthorized equipment shall trigger a formal investigation by IT in consultation with relevant departments.
- 8.4 Audit results and IT asset compliance KPIs shall be included in the annual IT Governance Report.
