

QC Inspection Request Manual

1. Purpose

This manual explains how a user will submit a QC Inspection Request and how the form fields should be filled. It also explains Fresh Request, Re-request, validation rules, attachments, and the QC role.

2. Roles

Role	What they do	Main responsibility
User / Requester	Submits Fresh Request or Re-request.	Fill correct customer details, contact number, date/time, lab, priority, attachments and remarks.
QC Team	Reviews the request.	Accept/reject the inspection request and manage inspection scheduling.
System / Power Automate	Runs approvals, emails and calendar actions.	Send emails, create/ delete calendar booking, and update SharePoint status.

3. Form Screens and User Instructions

The screenshot shows a web form titled "QC Inspection Request". Below the title, a message reads: "Hi Muhammad Azan, when you submit this form, the owner will see your name and email address muhammad.azan@pakistancables.com". The form has a section labeled "Request Type *" with a search bar containing "Type to filter". Below the search bar, there are two buttons: "Fresh Request" (highlighted in blue) and "Re-request" (highlighted in green). At the bottom of the form, there is a Microsoft logo and the text "Powered by Microsoft Lists". A disclaimer at the very bottom states: "This content is created by the owner of the form. The data you submit will be sent to the List owner. Never give out your password."

Screenshot 1: Request Type selection

Select Fresh Request for a new inspection. Select Re-request if the inspection needs to be requested again.

Screenshot 11: Published calendar event view

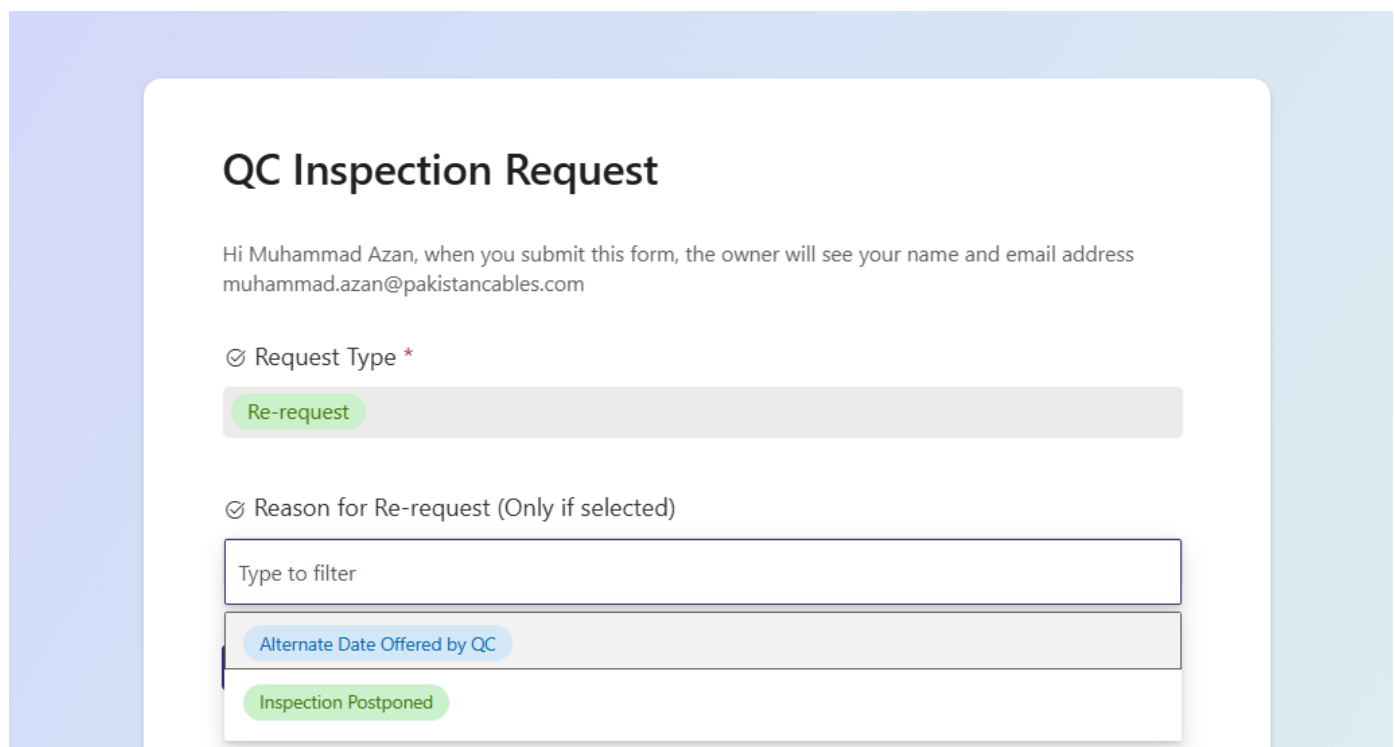

This screen shows the inspection event in the published calendar. The highlighted slot confirms that the inspection has been scheduled on the selected date and time.

4. Fresh Request Process

1. Open the QC Inspection Request form.
2. Select Request Type = Fresh Request.
3. Enter Customer Name.
4. Enter Customer Contact Number. Number must start from 03 and maximum length is 11 digits.
5. Enter Customer Contact Details.
6. Enter Sales Person Name and Sales Person Contact Number.
7. Select Factory visit requirement involved? Yes or No.
8. Select Requested Inspection Date & Start Time. Start time must be at least 24 hours in advance.
9. Select Requested Inspection Date & End Time. End time must be at least 24 hours in advance and after start time.
10. Select Lab Selection: MV Lab or LV Lab.
11. Select Priority: Normal or Urgent.
12. Attach Packing List if required. Multiple files can be attached.
13. Enter Remarks if needed.
14. Click Submit.

5. Re-request Process

For Re-request, the user selects Request Type = Re-request. After selecting Re-request, the field Reason for Re-request appears. User must select a reason before submitting the form.

Screenshot 12: Re-request reason

When Re-request is selected, Reason for Re-request must be selected. Remaining fields are same as Fresh Request.

Reason	Meaning
Alternate Date Offered by QC	QC gave another date, so user submits request again.
Inspection Postponed	Inspection was delayed/postponed and needs to be requested again.

Note: All other fields in Re-request are same as Fresh Request.

6. Field Rules

Field	Rule	Example
Customer Contact Number	Must start from 03 and maximum length is 11 digits.	03180029010
Start Time	Must be at least 24 hours in advance.	If today is 07-Jul, select 08-Jul or later as per rule.
End Time	Must be at least 24 hours in advance and after start time.	Start 01:00 PM, End 04:00 PM.
Factory Visit	Select Yes or No.	Yes means factory visit is involved.
Lab Selection	Select one lab.	MV Lab or LV Lab.
Priority	Select priority.	Normal or Urgent.
Packing List	Multiple attachments can be selected.	Upload one or more files.
Remarks	Optional field.	Write special instruction if needed.

7. QC Team Role

- QC checks the submitted customer details and contact details.
- QC checks requested start time, end time, lab selection and priority.
- QC accepts or rejects the request as per availability.
- If request is accepted, the system books the slot/calendar event.
- If user sends cancellation request, QC approves or rejects the cancellation.

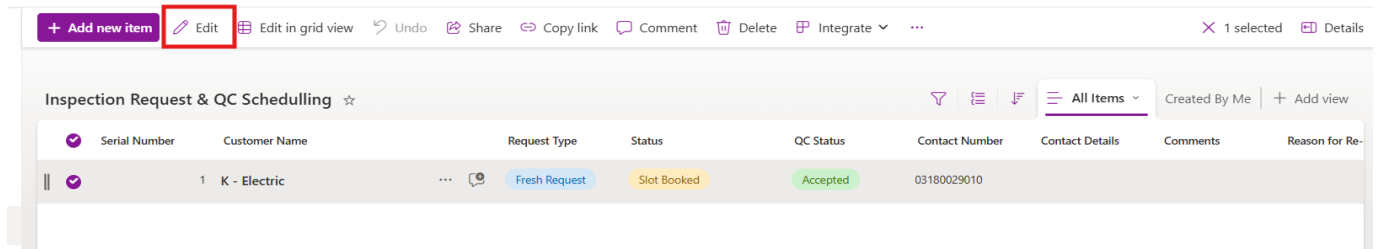

8. Important Notes

- Always select correct Request Type before filling the form.
- For Re-request, reason is required.
- Contact number must start from 03 and should not exceed 11 digits.
- Start and end time should follow the 24-hour advance rule.
- End time must be later than start time.
- Packing list can have multiple attachments.

13. Calendar Event Deletion / Inspection Cancellation Process

Purpose: This section explains how a user requests cancellation of an already booked QC inspection slot and how QC approves or rejects the calendar deletion request.

Step	User / QC Action	System Result
1	User selects the booked inspection request and clicks Edit, or double-clicks the request.	The item opens in edit mode.
2	User changes the Status value from Slot Booked to Inspection Cancelled.	Cancellation approval request is sent to QC.
3	User checks QC Status after submitting cancellation request.	QC Status shows Pending while waiting for QC action.
4	QC approves the cancellation request.	Calendar event is deleted and QC Status becomes Inspection Cancelled Accepted.
5	QC rejects the cancellation request.	Calendar event is not deleted and QC Status becomes Inspection Cancelled Rejected.

Screenshot 13: Select booked inspection request

User first selects the booked inspection request from the SharePoint list. After selecting the record, click Edit to update the request status.

The screenshot shows the "Edit all" form for the inspection request. The form includes fields for Priority (Normal), Reason for Re-request (Only if selected), Remarks (Enter value here), QC Status (Accepted), Status (Slot Booked, highlighted with a red box), Requested Inspection Date & End Time (7/8/2026 4:00 PM), Comments (Enter value here), and Contact Details (Enter value here). The right sidebar shows the Comments section with a text input field and a button to add a comment.

The screenshot shows the "Status" dropdown menu. The menu is open, showing a list of status options: Submitted, Approved, Inspection Completed, Closed, and Inspection Cancelled (highlighted with a red box). The dropdown is titled "Status" and has a search bar "Type to filter".

Screenshot 14: Select Inspection Cancelled status

To cancel the booked inspection slot, user opens the Status field and selects Inspection Cancelled from the dropdown.

19	20	21	22	23	24	25	
26	27	28	29	30	31	Aug 1	

Screenshot 19: Calendar event deleted after approval

After QC approval, the inspection event is removed from the published calendar. The highlighted date is now empty, confirming that the booked slot has been deleted.

14. User Instructions

- Open the Inspection Request & QC Scheduling list.
- Select your booked request or double-click the request row.
- Click Edit if the item is not already open for editing.
- Go to the Status field and select Inspection Cancelled.
- Save the item. The request will be sent to QC for calendar event deletion approval.
- After submission, check the QC Status column to see whether the request is Pending, Accepted, or Rejected.

15. QC Approval Result

QC Decision	Result shown to user
Approve	Calendar event is deleted. Status remains Inspection Cancelled and QC Status shows Inspection Cancelled Accepted.
Reject	Calendar event is not deleted. QC Status shows Inspection Cancelled Rejected so the user can see that QC did not approve the cancellation.

16. Test Report Upload Reminder

After the inspection is completed, the system will send reminder emails to the user for uploading the test reports.
Process:

- When the request Status is updated to [Inspection Completed](#), the system will consider the inspection completed.
- After 24 hours, an email reminder will be sent to the user.
- After 48 hours, another reminder email will be sent to the user if required.
- The email will inform the user that the inspection has been completed and the test reports should be uploaded.

17. Short Notes

- Only booked slots should be cancelled using this process.
- The user should not manually delete calendar events.
- QC approval is mandatory before the calendar event is deleted.
- The user can track the final decision from the QC Status column in the SharePoint list.
- The reminder email will be sent automatically after completion of inspection so the user can upload the test reports on time.
